- **Andrews County Veterans Service Officer, Jack Greg** – “As the Veterans service officer and also a member of the Veterans Board, I wanted to thank you for your help with our Andrews County Veteran’s Memorial. The tiles look first class and enhance the memorial greatly.”
- **Jennifer Walsh** – “My brother and I put a bench together that would be special to our parents. Your team was so patient as we worked through some ideas on the bench. We finally decided on “Granny and Papa’s Special Place” and also put all the grandchildren’s handprints and names on the bench. It couldn’t have come out more perfectly... My mom and dad are so proud of their very own bench and show it to everyone that comes to visit. This is truly a gift that will last through their lives and as our children grow up.”
- **Bill Schultz, Canton, MI** – “This was important to me. My 12-year-old son recently had a middle school volleyball sports banquet. I forgot about it I never miss my boys activities. I felt lousy about missing the banquet where the team member gets various awards. My son receive the “brick wall award” from his coach...The coach gives the award to a player with a good work ethic. The coach will tell a kid to do something hard...as hard as building a brick wall and the ambitious kid will say “how high do you want the wall?” So the important story behind your good work. My son liked the brick a lot. Again how sweet of you to follow through... you are the living example of Texas Hospitality and an excellent work ethics.”
- **Glenn Stone** – “I discovered your service about 2 years ago, and I wanted to tell you the two most meaningful presents I’ve given my parents in recent history are an engraved stone y’all did for them two years ago, and one of your engraved benches last year.”
- **Joe Parker, Ch Treasurer** – “Thanks so much for a job well done for us here at the Obasant Hill Church, may God continually bless you and your company always.”
